

Flower Power

Name Ino Poente

Flowers are beautiful to look at and pleasant to smell, but they also have a very important job. Most plants make seeds inside the flower.

Color each flower part the color listed on the chart. Label each part.

Flower Part	Description	Color
<u>Filament</u>	A large center stalk, often shaped like a water bottle.	yellow
<u>Ovary</u>	A tall, thin stalk with a knobbed tip. It holds grains of pollen.	brown
<u>petal</u>	Brightly colored and sweet-smelling leaves.	red
<u>sepal</u>	Small leaf-like part at the base of the flower.	green
<u>Ovule</u>	Ball-shaped part at the base of the pistil. This is where the seeds develop.	blue
